Mar 20, 2008 MSDS 825388-001 Date:

**SECTION 1 – PRODUCT AND COMPANY IDENTIFICATION** 

**PRODUCT NAME:** HP2600 Toner - Yellow

**PART NUMBER:** DPC2600Y, CTG2600MY & DPC2600YS

Clover Technologies Group **COMPANY:** 

ADDRESS: 2001 Anchor Court

Thousand Oaks, CA 91320

**TELEPHONE:** (800) 232-2141

**SECTION 2 – COMPOSITION / INFORMATION ON INGREDIENTS** 

**Ingredient:** Pigment **CAS No.:** Proprietary % in Mixture: 1 - 20 **OSHA ACGIH NIOSH UNIT OF MEASURE TWA** NF NF NF ma/cu.meter **STEL** NF NE NF mg/cu.meter **IDLH** NA NA NF mg/cu.meter

**Ingredient:** Silica, amorphous **CAS No.:** Proprietary **%** in Mixture: < 5 **UNIT OF MEASURE OSHA ACGIH NIOSH TWA** 80 / % SiO2 10 mg/cu.meter 6 **STEL** NF NF NF mg/cu.meter NA NA **IDLH** NE Mq/cu.meter

**Ingredient:** Styrene Acrylate Copolymer **CAS No.:** Proprietary % in Mixture: 70 - 95 **ACGIH NIOSH UNIT OF MEASURE OSHA** mg/cu.meter **TWA** NE NE NE **STEL** 

NE NE NE mg/cu.meter **IDLH** NA NA NE mg/cu.meter

Accumulations of dust in the respiratory system may cause congestion.

If use generates airborne particles, treat as a NUISANCE PARTICULATE

**SECTION 3 – HAZARDS IDENTIFICATION** 

**PRIMARY ENTRY ROUTES:** Absorbtion, Ingestion, Inhalation

**TARGET ORGANS:** N/A

**INHALATION EFFECTS:** Slight irritation of respiratory tract

**EYE EFFECTS:** Dust may cause irritation by mechanical abrasion

SKIN EFFECTS: May cause skin irritation.

**INGESTION EFFECTS:** N/A CARCINOGENICITY: N/A

MEDICAL CONDITIONS AGGRAVATED BY

**LONG-TERM EXPOSURE:** 

CHRONIC EFFECTS AND/OR

**RECOMMENDATIONS::** (ACGIH TLV=10mg/cu. Meter)

#### MATERIAL SAFETY DATA SHEET **SECTION 4 - FIRST AID MEASURES INHALATION:** Protect yourself with appropriate PPE, remove the person to fresh air. Decontaminate and begin resue breathing if breathing has stopped and CPR if heart action has stopped. Seek prompt medical attention. EYE: DO NOT allow victim to rub or keep eyes tightly shut. Gently lift eyelids and immediately flush eyes with large amounts of water. Remove any contacts lenses. Continue to flush for at least 30 minutes, occasionally lifting the upper and lower lids. Seek prompt medical attention. Quickly remove contaminated clothing. Immediately wash area SKIN: with large amounts of water. Seek prompt medical attention for any reddened skin other than from washing. Never give anything by mouth to an unconscious or convulsing **INGESTION:** person. Contact a Poison Control Center (PPC). Unless the PCC advises otherwise, have the conscious and alert person drink 1 to 2 glasses of water to dilute. Induce vomiting only after recent ingestions due to the possibility of seizures. Seek prompt medical attention. **ADDITIONAL FIRST AID INFORMATION:** N/A **SECTION 5 – FIRE FIGHTING MEASURES FLASH POINT** N/A **FLASH POINT METHOD:** N/A FLAMMABILITY CLASSIFICATION: 1 Slight (HMIS, NFPA) **AUTO IGNITION TEMPERATURE:** ND LEL: N/A **UEL:** N/A **BURNING RATE:** N/A **EXTINGUISHING MEDIA:** Water spray, dry chemical, foam, carbon dioxide, or halon-type extinguishers. **UNUSUAL FIRE/EXPLOSION HAZARDS:** May form flammable dust-air mixture. Carbon monoxide, carbon dioxide, and smoke. Under certain **HAZARDOUS COMBUSTION PRODUCTS:** conditions some aliphatic aldehydes and carboxylic acids may Do not release runoff from fire control methods to sewers or **FIRE-FIGHTING INSTRUCTIONS:** waterways. **FIRE-FIGHTING EQUIPMENT:** Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with full facepiece operated in pressure-demand or positivepressure mode. **SECTION 6 – ACCIDENTAL RELEASE MEASURES CONTAINMENT METHOD:** When cleaning up spilled material, keep unnecessary away,

When cleaning up spilled material, keep unnecessary away, isolate area, and deny entry unitl the spilled material has been removed. Scoop up material and place in a chemical waste container. Suction up remaining material using a high efficiency vacuum cleaner. Avoid suspending particles in the air. Extreme caution should be used as material presentsa slip hazard.

REPORTING REQUIREMENTS: Follow applicable OSHA regualtions (29 CFR 1910.120).

**SECTION 7 – HANDLING AND STORAGE** 

**HANDLING PRECAUTIONS:** Keep containers closed at all times. Avoid creating dust. Keep

away from ignition sources.

**STORAGE REQUIREMENTS:** Product is prone to gradual oxidation which may reduce quality

over time.

**REGULATORY REQUIREMENTS:** Follow all applicable local, state, and Federal regulations.

### **SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION**

**ENGINEERING CONTROLS:** 

**VENTILATION:** The best protection is to enclose operations and or provide local

exhaust ventilation systems to maintain airbourne concentrations belowOSHA PELs (sec.2). Local exhaust ventillation is preffered because it prevents contaminent dispersion into the work area by controlling it at its source.

ADMINISTRATIVE CONTROLS: RESPIRATORY PROTECTION:

IMPOPER USE OF RESPIRATORS IS DANGEROUS. Seek

professional advise prior to respirator selection and use. Follow OSHA respirator regualations (29 CFR 1910.134 & 1910.137) and, if necessary, wear a MSHA/NIOSH-approved repirator. Select Respiratorbased on its suitability to provide adequate worker protection for given working conditions, level of airbourne contamination, and presence of sufficient oxygen. For emergency or nonroutine operation (cleaning spills, reactor vessels, or starage tanks), wear an SCBA. *Warning! Air-purified respirators do not protect workers in oxygen-deficient* 

atmospheres. If Respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit testing, periodic environmental monitoring, maintenance, inspection, cleaning and convenient,

sanitary storage areas.

**PROTECTIVE CLOTHING/EQUIPMENT:** Wear chemically protective gloves, boots, aprons, and gauntlets

to prevent prolonged or repeated skin contact. Wear protective Eyeglasses or chemical safety goggles, per OSHA eye-and face-protection regulations (29CFR 1910.133). Contact lenses are not eye protectiv devises. Appropriate protection must be worn

instead of, or in conjuction with contact lenses.

**SAFETY STATIONS:** Make emergency eyewash stations and washing facilities

available in work area.

**CONTAMINATED EQUIPMENT:** Separate containinated work clothing from street clothes.

launder before re-use. Remove this material from your shoes

and clean personal protective equipment.

**COMMENTS:** Never eat, drink, or smoke in work areas. Pratice good personal

hygiene after using this material, especially before eating,

drinking using the toilet, or applying cosmetics.

### **SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

**BOILING POINT:** N/A

FREEZING/MELTING POINT: 100-150°C

ODOR THRESHOLD:

PHYSICAL STATE:

VISCOSITY:

N/A

REFRACTIVE INDEX:

N/A

**Vapor density (Air=1):** Heavier than air

**APPEARANCE AND ODOR:** Yellow fine powder, faint odor

%VOLATILE:N/ASURFACE TENSION:N/AVAPOR PRESSURE:N/AWATER SOLUBILITY:NegligibleDENSITY:1.0-2.0EVAPORATION RATE:N/AFORMULA WEIGHT:N/A

**OTHER SOLUBILITY:** Partial soluble in Toluene & Xylene

Ph: N/A
SPECIFIC GRAVITY where Water = 1 at 4°C: N/A
ADDITIONAL COMMENTS: N/A

### **SECTION 10 – STABILITY AND REACTIVITY**

**STABILITY:** Stable under conditions of normal use. **POLYMERIZATION:** Hazardous polymerization cannot occur.

**HAZARDOUS DECOMPOSITION PRODUCTS:** Combustion will produce carbon dioxide and possibly chemicals

such as carbon monoxide.

CHEMICAL INCOMPATIBLITIES N/A
CONDITIONS TO AVOID: N/A
OTHER COMMENTS: N/A

### **SECTION 11 – TOXICOLOGICAL INFORMATION**

**EYE EFFECTS: ACUTE ORAL EFFECTS:** N/A N/A **ACUTE INHALATION EFFECTS: N/A** N/A **MUTAGENICITY:** SKIN EFFECTS: N/A **CHRONIC EFFECTS:** N/A **CARCINOGENICITY:** N/A **TERATOGENCITY:** N/A

### **EXPLANATION of TOXICOLOGICAL CRITERIA**

**CHEMICAL COMPONENT: Pigment** 

**HEALTH EFFECTS:** Ames Test Negative. LD50>5000 mg/kg

**INHALATION:** Acute Exposure: May cause irritation of the mucous membranes. Chronic Exposure: No data

available.

**SKIN CONTACT:** Chronic Exposure: Repeated contact may cause an allergic reaction.

**EYE CONTACT:** Acute Exposure: Contact may cause mechanical irritation.

INGESTION: Acute Exposure: The LD50 reported in rats was>50000 mg/kg. Ingestion may result in gastric

disturbances.

**CHEMICAL COMPONENT:** Silica, amorphous

SILICON DIOXIDE:

**CARCINOGEN STATUS: IARC** 

MEDICAL CONDITIONS

AGRRAVATED BY EXPOSURE:

**HEALTH EFFECTS: INHALATION:** 

**ACUTE EXPOSURE: SILICON** 

**DIOXIDE:** 

CHRONIC EXPOSURE:

SILICON DIXIDE:

Human Inadequate Evidence, Animal InadequateEvidence, Group 3, (Amorphous silica)

Respiratory disorders

Dusts may cause irritation of the respiratory tract and coughing.

Exposure to dusts of amorphous silica for 6 months to 30 years may result in silicosis with symptoms of cough, chest pain, dyspnea, tachypnea, marked weakness, and weight loss. This pulmonary insufficiency may be characterized by diffuse nodular fibrosis, distortion of bronchi, bullous emphysema. Although pulmonary fibrosis has been reported from the workers exposed to amorphous silica, the crystalline form is the established cause of fibrotic response in the lung. However, the amorphous form has been reported as fibrogenic to a lesser extent. As the disease progresses, cor pulmonale, Cardiorespiratory failure, and death may occur.

**SKIN CONTACT:** 

**ACUTE EXPOSURE: SILICON** 

**DIOXIDE:** 

CHRONIC EXPOSURE:

SILICON DIXIDE:

**EYE CONTACT:** 

**ACUTE EXPOSURE: SILICON** 

**DIOXIDE:** 

**CHRONIC EXPOSURE:** 

SILICON DIXIDE: **INGESTION:** 

**ACUTE EXPOSURE: SILICON** 

**DIOXIDE:** 

**CHRONIC EXPOSURE:** 

SILICON DIXIDE

Prolonged skin contact with dry particulate may cause drying of the skin.

No data available

Dusts may cause irritation with redness and pain.

No data available

The effects of ingestion are purely mechanical as the substance is inert chemically and

No data available

biologically.

CHEMICAL COMPONENT: Styrene Acrylate Copolymer

Data not Availiable

#### **SECTION 12 – ECOLOGICAL INFORMATION**

**ECOTOXICITY:** N/A N/A **ENVIRONMENTAL FATE: ENVIRONMENTAL DEGRADITION:** N/A SOIL ABSORBTION/MOBILITY N/A

#### **SECTION 13 – DISPOSAL CONSIDERATIONS**

**DISPOSAL:** Waste material may be disposed of, incinerated, or recycled for

> its iron oxide under conditions that meet all Federal, state and local regulations. Contact your supplier or a licensed contractor

for detailed recommendations.

**DISPOSAL REGULATORY REQUIREMENTS:** N/A **CONTAINER CLEANING AND DISPOSAL:** N/A
