4 FIRST AID MEASURES

Eye Contact

Rinse thoroughly with plenty of water, also under the eyelids. If symptoms persist, call a

physician.

Skin Contact

In the case of skin irritation or allergic reactions see a physician.

Wash skin with soap and water.

Inhalation

Move to fresh air in case of accidental inhalation of vapors or decomposition products. If

symptoms persist, call a physician.

Ingestion

Not an expected route of exposure. Do NOT induce vomiting. Drink plenty of water. If

symptoms persist, call a physician.

Notes to Physician

Treat symptomatically.

Protection of First-aiders

Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

5. FIRE-FICHTING MEASURES

Flammable Properties

Flammable; may be ignited by heat, sparks or flames.

Flash Point

23.3°C / 74°F

Sultable Extinguishing Media

Foam. Carbon dioxide (CO₂). Water spray or fog.

Unsuitable ExtInguishing Media

CAUTION: All these products have a very low flash point. Use of water spray when fighting

fire may be inefficient.

Hazardous Combustion Products Sensitivity to Mechanical Impact Carbon oxides.

Explosion Data

None.

Sensitivity to Static Discharge

May be ignited by heat, sparks or flames.

Specific Hazards Arising from the Chemical

Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapor explosion hazard indoors, outdoors or in sewers. Those substances designated with a "P" may polymerize explosively when heated or involved in a fire. Runoff to sewer may create fire or explosion hazard.

Protective Equipment and Precautions for Firefighters

Move containers from fire area if you can do it without risk

Personal Precautions A

G. ACCIDENTAL RELEASE MEASURES

Personal Precautions

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Stop leak if you can do it without risk.

Methods for Containment

A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.

Methods for Cleaning Up

Use clean non-sparking tools to collect absorbed material. Dike for ahead of liquid spill for

later disposal.

Other Information

Water spray may reduce vapor; but may not prevent ignition in closed spaces.

7. NANDLING AND STORAGE

Handling

Handle in accordance with good industrial hygiene and safety practice. Discard after single

use.

Storage

Keep away from heat and sources of ignition. Keep container tightly closed. Keep from

freezing. Keep out of the reach of children,
