

Issuing date : 28-Feb-2006
Revision date : 22-May-2015

SDS # : TCW 0324 R - 01 US EN
Version : 03

SECTION 1: Product and company identification**Product Identifier**

Product name Canon GPR-20 Yellow Toner (for Copier/Printer)

Product Code(s) 1066B001

Use Toner for electrophotographic machines

Details of the supplier of the safety data sheet**Supplier**

Canon USA, Inc.
One Canon Park, Melville, NY 11747, USA
Phone number : 1-800-OK-CANON
Emergency phone number : 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Canon Canada Inc.
6390 Dixie Road, Mississauga, Ontario L5T 1P7, Canada
Phone number : (1) 905-795-1111
Emergency phone number : 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Manufacturer

Canon Inc.
30-2, Shimomaruko 3-Chome, Ohta-ku, Tokyo 146-8501, Japan

SECTION 2: Hazards identification**Emergency Overview**

Yellow fine powder, slight plastic odor.

Classification under OSHA HCS

Not classified

US Label Elements under OSHA HCS**Symbol**

Not required

Signal word

Not required

Hazard statements

Not required

Precautionary statements

Not required

Other Information

None

Other hazards which do not result in classification

None

SECTION 3: Composition/information on ingredients

| Chemical name | CAS-No | Weight % |
|----------------------------|------------|----------|
| Styrene acrylate copolymer | CBI | 75 - 85 |
| Wax | CBI | 5 - 10 |
| Pigment | CBI | 1 - 5 |
| Titanium dioxide | 13463-67-7 | < 1 |

SECTION 4: First aid measures

Description of first aid measures

| | |
|---------------------|--|
| Inhalation | Move to fresh air. Get medical attention immediately if symptoms occur. |
| Ingestion | Rinse mouth. Drink 1 or 2 glasses of water. Get medical attention immediately if symptoms occur. |
| Skin Contact | Wash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur. |
| Eye Contact | Flush with plenty of water. Get medical attention immediately if symptoms occur. |

Most important symptoms and effects, both acute and delayed

| | |
|------------------------|--|
| Inhalation | None under normal use. Exposure to excessive amounts of dust may cause physical irritation to respiratory tract. |
| Ingestion | None under normal use. |
| Skin Contact | None under normal use. |
| Eye Contact | None under normal use. May cause slight irritation. |
| Chronic Effects | None under normal use. Prolonged inhalation of excessive amounts of dust may cause lung damage. |

Indication of any immediate medical attention and special treatment needed

None

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing media

Use CO₂, dry chemical, or foam, Water.

Unsuitable extinguishing media

None

Special hazards arising from the substance or mixture

Special Hazard

May form explosive mixtures with air.

Hazardous combustion products

Carbon dioxide (CO₂), Carbon monoxide (CO)

Advice for firefighters

Special protective equipment for fire-fighters
None

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid breathing dust. Avoid contact with skin, eyes and clothing.

Environmental Precautions

Keep out of waterways.

Methods and material for containment and cleaning up

Clean up promptly by scoop or vacuum. If a vacuum cleaner is used, be sure to use a model with dust explosion safety measures. May form explosive mixtures with air.

Other Information

None

SECTION 7: Handling and storage

Precautions for safe handling

Avoid breathing dust. Avoid contact with skin, eyes and clothing. Clean contaminated surface thoroughly. Use only with adequate ventilation.

Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep out of the reach of children. Incompatible with oxidizing agents.

SECTION 8: Exposure controls/personal protection

Exposure guidelines

| Chemical name | OSHA PEL | ACGIH TLV |
|--------------------------------|--------------------------------------|---------------------------|
| Titanium dioxide 13463-67-7 | TWA: 15 mg/m ³ total dust | TWA: 10 mg/m ³ |

Appropriate engineering controls None under normal use conditions.

Individual protection measures, such as personal protective equipment

| | |
|-------------------------------|--------------------------------|
| Eye/face Protection | Not required under normal use. |
| Skin Protection | Not required under normal use. |
| Respiratory Protection | Not required under normal use. |

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

| | |
|-----------------------|-------------------|
| Appearance | Yellow ; powder |
| Odor | Slight odor |
| Odor threshold | No data available |

| | |
|--|---------------------------------|
| pH | Not Applicable |
| Melting/Freezing point (°C) | 100-150 (Softening point) |
| Boiling Point/Range (°C) | Not Applicable |
| Flash Point (°C) | Not Applicable |
| Evaporation Rate | Not Applicable |
| Flammability (solid, gas) | Not flammable; estimated |
| Flammability Limits in Air | |
| Upper Flammability Limit | Not Applicable |
| Lower Flammability Limit | Not Applicable |
| Vapor pressure | Not Applicable |
| Vapor Density | Not Applicable |
| Relative density | 1.0-1.2 |
| Solubility(ies) | Organic solvent; partly soluble |
| Partition coefficient: n-octanol/water | Not Applicable |
| Autoignition Temperature (°C) | No data available |
| Decomposition Temperature (°C) | > 200 |
| Viscosity (mPa s) | Not Applicable |

Other Information

No data available

SECTION 10: Stability and reactivity

Reactivity

None

Chemical stability

Stable

Possibility of Hazardous Reactions

None

Conditions to Avoid

None

Incompatible materials

Acids, Bases, Oxidizing agents, Reducing agents.

Hazardous Decomposition Products

Carbon dioxide (CO₂), Carbon monoxide (CO)

SECTION 11: Toxicological information

Information on toxicological effects

| | |
|-----------------------------------|--|
| Acute toxicity | Estimate: LD50 > 2000 mg/kg (Ingestion) |
| Skin corrosion/irritation | Estimate: Non-irritant |
| Serious eye damage/eye irritation | Estimate: Transient slight conjunctival irritation only. |
| Sensitization | Non-sensitizing |

| | |
|---------------------------------|---|
| Germ cell mutagenicity | Ames Test (S. typhimurium, E. coli): Negative |
| Carcinogenicity | The IARC evaluated titanium dioxide as a Group 2B carcinogen, for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the evidence such as development of lung tumors in rats receiving chronic inhalation exposure to powdered titanium dioxide at levels that induce particle overload of the lung. However, there is an inhalation study of a toner containing titanium dioxide which suggested no association between toner exposure and tumor development in rats. |
| Reproductive Toxicity | No data available |
| STOT - single exposure | No data available |
| STOT - repeated exposure | Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m ³ which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m ³ , and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m ³ . These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lung for a prolonged interval. |
| Aspiration hazard | No data available |
| Other Information | No data available |

SECTION 12: Ecological information

Toxicity

Ecotoxicity effects

Estimate: Fish, 96h LL50 > 1000 mg/l (WAF)
Estimate: Crustaceans, 48h EL50 > 1000 mg/l (WAF)
Estimate: Algae, ErL50(0-72h) > 1000 mg/l (WAF)

Persistence and degradability

No data available

Bioaccumulative potential

No data available

Mobility in soil

No data available

Other adverse effects

No data available

SECTION 13: Disposal considerations

Waste treatment methods

DO NOT put toner or a toner container into fire. Heated toner may cause severe burns. DO NOT dispose of a toner container in a plastic crusher. Use a facility with dust explosion prevention measures. Finely dispersed particles form explosive mixtures with air. Dispose of in accordance with local regulations.

SECTION 14: Transport information

| | |
|---|--|
| <u>UN number</u> | None |
| <u>UN Proper Shipping Name</u> | None |
| <u>Transport Hazard Class</u> | None |
| <u>Packing Group</u> | None |
| <u>Environmental Hazards</u> | No special environmental precautions required. |
| <u>Special Precautions for users</u> | None |
| <u>Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code</u> | Not Applicable |

SECTION 15: Regulatory information

Safety, health and environmental regulations specific for the product in question

| | |
|---------------------------|-----------------------------|
| TSCA Sec. 4,5,6,7,8,12b | None |
| SARA Title III Sec. 313 | None |
| California Proposition 65 | None |
| CEPA Sec. 81 | None (Manufactured Item) |
| HPA (WHMIS) | None (Manufactured Article) |
| Other Information | None |

SECTION 16: Other information

Key literature references and sources for data

- U.S. Department of Labor, 29CFR Part 1910
