SECTION 5	FIRE FIGH	
Flash Point:	N/A	
Flash Point M		
Burning Rate:		
-		: Not Determined
LEL:	N/A	. Not Determined
UEL:	N/A N/A	
Flammability		
Extinguishing		Water spray, dry chemical, foam, carbon dioxide, or halon type extinguishers.
Unusual Fire		
Hazardous Co	ombustion Pr	roducts: Carbon monoxide, carbon dioxide, nitrogen oxide and smoke. Under certain conditions some aliphatic aldehydes and carboxylic acids may form.
Fire-Fighting	Instructions:	Do not release runoff from fire controls methods to sewers or waterways.
Fire-Fighting	Equipment:	Because fire may produce toxic thermal decomposition products, wear a
		self-contained breathing apparatus (SCBA) with full facepiece operated
		in pressure-demand or positive-pressure mode.
		AL RELEASE MEASURES
Spill / Leak Pr		N/A
Small Spills:	Scoop into a	container for disposal, suction up remaining material with a high efficiency
	vacuum clea	iner.
Large Spills:	Scoop into a	container for disposal, suction up remaining material with a high efficiency
	vacuum clea	iner.
Containment:	For large spi	ills, avoid suspending particles, collect for later disposal. Do not release
	into sewers	or waterways.
Cleanup:	No special re	equirements.
Regulatory Re	equirement:	N/A
SECTION 7	HANDLING	AND STORAGE
Handling Pred	cautions:	Keep containers closed at all times. Avoid creating dust. Keep away from ignition sources.
Storage Requ	irements:	Store in a cool, dry location.
Regulatory Re	equirement:	N/A
SECTION 8	EXPOSURE	E CONTROLS / PERSONAL PROTECTION
Engineering C	Controls:	
Ventilation:	Provide gene	eral or local exhaust ventilation systems to maintain airborne concentrations
	below OSHA	A PELs (sec.2). Local exhaust ventilation is preferred because it prevents contaminant
	dispersion in	to the work area by controlling it at its source.
Administrativ	e Controls:	
Respiratory P	rotection:	Seek professional advise prior to respirator selection and use.
		Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear
		a MSHA/NIOSH-approved respirator. Select respirator based on its suitability
		to provide adequate worker protection for given working conditions, level of
		airborne contamination, and presence of sufficient oxygen. For emergency or
		nonroutine operation (cleaning spills, reactor vessels, or storage tanks), wear
		an SCBA. Warning! Air-purified respirators do not protect workers in oxygen-deficient
		atmospheres.
Protective Clo	othing/Equip	ment: Wear chemically protective gloves, boots, aprons, and gauntlets to prevent
	0	prolonged or repeated skin contact. Wear protective eyeglasses or
		chemical safety goggles, per OSHA eye and face protection regulations
		chemical safety goggles, per OSHA eye and face protection regulations (29CFR 1910.133). Contact lenses are not eve protective devices. Appropriate
		(29CFR 1910.133). Contact lenses are not eye protective devices. Appropriate
Safety Station	ns: Make	(29CFR 1910.133). Contact lenses are not eye protective devices. Appropriate protection must be worn instead of, or in conjunction with contact lenses.

SECTION 15 REGULATORY INFORMATION

EPA Regulations:

RCRA Hazardous Waste Number: Not listed (40 CFR 261.33) RCRA Hazardous Waste Classification: (40 CFR 261): Not classified CERCLA Hazardous Substance (40 CFR 302.4) listed unlisted specific per RCRA, sec. 3001; CWA sec.311 (b)(4); CWA, Sec. 307(a),CAA,Sec.112 CERCLA Reportable Quantity(RQ), Not listed SARA 311/312 Codes: N/A SARA Toxic Chemical (40 CFR 372.65): Not listed

SARA EHS (Extremely Hazardous Substance) (40CFR 355): Not listed, Threshold Planning Quantity (TPQ)

OSHA Regulations:

Air Containment (29 CFR 1910.1000< Table Z-1-A): Particulates not otherwise regulated.

State Regulations: Check your states regulations that may specifically list copy machine toner.
