

Date : March 30, 2016

Object : Certificate of Exemption from OSHA Revised Hazard Communication Standard (HCS 2012)

Dear Customer,

The 29 CFR 1910.1200 has been updated to align with the UN Globally Harmonized System of Classification and Labeling of Chemicals (GHS), Revision 3, issued in the Federal Register, March 26, 2012. This rule became effective May 25, 2012.

This document is to certify that the Honeywell first aid kits you have purchased are “articles” as defined in 29 CFR 1910.1200(c) to which the revised hazard communication requirement of 1910.1200 (a) and (b) do not apply, as specifically stated in 1910.1200 (b)(6)(v).

The first aid supplies may contain articles and or drugs. Drugs contained in first aid suppliers are exempt from the revised Hazard communication requirements of 1910.1200 (a) and (b) as specifically stated in 1910.1200(b)(6)(vii).

Accordingly, no safety data sheets (SDS) exist for first aid kits or their contents.

Sincerely,

John Vincent
Technical Leader, Specialty Products
