To Whom It May Concern:

RE: Pacon products exempt from Global Harmonized System (GHS) Safety Data Sheets (SDS), previously Material Safety Data Sheets (MSDS), requirements.

The alignment of GHS with the OSHA Hazard Communications Standard (HCS), replaces Material Safety Data Sheet requirements with those for Safety Data Sheets. This right-to-know documentation is required to be shared with employees using hazardous chemicals in the workplace.

Pacon Corporation's products are exempt from the OSHA Hazard Communication Standard for the following reasons:

1. Pacon Corporation does not produce hazardous chemicals for use in the workplace.
2. Pacon and Strathmore paper products are exempt from 29 CFR 1910.1200 (b) (5) (iii), 29 CFR 1910.1200 (b) (5) (iv), and 29 CFR 1910.1200 (b) (6) (v) in that the wood and wood products exemption has been interpreted to include paper.
3. Pacon Corporation products are considered "Articles" under the OSHA Hazard Communications regulations. Articles are manufactured items that do not release, or otherwise result in exposure to, a hazardous chemical under normal conditions of use.
4. Pacon Corporation products are considered "Consumer Products" and are therefore regulated under the Federal Trade Commission's Consumer Product Safety Commission rules. "Consumer Products" are exempt from OSHA Hazard Communications regulations

Due to these exemptions, Material Safety Data Sheets/Safety Data Sheets are not required for Pacon Corporation products.

If you have any questions regarding this please contact me at 800-333-2545. ext. 6720.

Sincerely,

Keith Keller
Director of Marketing
