### Section 2. Hazards identification

This product is a clear liquid with a slight alcohol odor. For non-free flowing products, the liquid is impregnated on a cellulose pad, polypropylene pad or felt pen core. There is a small amount of liquid on the pads and no free liquid in the packages. For free flowing liquid, a small amount of liquid is contained in an enclosed core that is then opened to release liquid onto the applicator. A very small amount of free liquid may be released.

See Section 16 for further information on EU and GHS Classification.

### Section 4. First-aid measures

#### 4.1 Description of First Aid Measures

**Eye Contact:** If contact occurs, immediately flush eyes with water for 15 minutes, holding the eye lids open to be sure the material is washed out. Get medical attention if irritation persists.

**Skin:** No first aid should be required. If skin irritation develops, discontinue use and seek medical attention.

**Inhalation:** If symptoms develop move to fresh air. Get medical attention if irritation persists or other symptoms persist.

**Ingestion:** Ingestion is unlikely for solid products. No first aid is required for small amounts transferred from hands to mouth.

4.2 **Most Important symptoms and effects, both acute and delayed:** Causes eye irritation. May cause slight skin irritation.

4.3 **Indication of any immediate medical attention and special treatment needed:** None required under normal conditions of use.

### Section 5. Firefighting measures

#### 5.1 Extinguishing Media:

Use water spray or fog, foam, carbon dioxide or dry chemical.

#### 5.2 Special Hazards Arising from the Substance or Mixture

**Unusual Fire and Explosion Hazards:** Liquid saturant is flammable liquid and vapor. Vapors are heavier than air and may flow along surfaces to remote ignition sources and flash back. This product contains only a small amount of liquid per container, therefore the risk of creating a fire hazard is minimal.

**Hazardous Decomposition Products:** Combustion may produce oxides of carbon.

#### 5.3 Advice for Fire-Fighters:

Firefighters should always wear self-contained breathing apparatus and full protective clothing for fires involving chemicals or in confined spaces.

### Section 6. Accidental release measures

#### 6.1 Personal Precautions, Protective Equipment and Emergency Procedures:

Wear appropriate protective clothing. Eliminate ignition sources. Eliminate sources of ignition or heat.

#### 6.2 Environmental Precautions:

## Read Right® Smart Cleaning Card with Waffletechnology

Report spill as required by local and federal regulations.

### 6.3 Methods and Material for Containment and Cleaning Up:

Pick up wipe and place into an appropriate container for disposal. Do not place into containers where ignition sources such as cigarettes or other ignition sources may be discarded. If free liquid is released, wipe up liquid with a paper towel or absorb liquid with an inert absorbent and place into a container for disposal.

### 6.4 Reference to Other Sections:

Refer to Section 8 for protective equipment and Section 15 for disposal considerations.

## Section 7. Handling and storage

### 7.1 Precautions for Safe Handling:

Avoid contact with eyes. Avoid breathing vapors. Do not smoke when handling.

### 7.2 Conditions for Safe Storage, Including any Incompatibilities:

Store in a cool, dry location away from heat, sparks and open flames. Protect container from physical damage. Keep containers closed when not in use.

### 7.3 Specific end use(s):

Technical cleaning.

## Section 8. Exposure controls/personal protection

### 8.1 Control parameters:

| Chemical Name | Exposure Limits  | Biological Limit Value |

### 8.2 Exposure Controls

**Engineering Controls:** General ventilation is adequate under normal conditions of use.

**Respiratory Protection:** None required for normal use.

**Skin Protection:** None required under normal use conditions. For prolonged exposure or exposure to free liquid, use butyl rubber gloves if needed to prevent skin contact.

**Eye Protection:** None required under normal use conditions. For prolonged exposure or exposure to free liquid, use eye glasses with side shields or goggles to prevent eye contact if splashing is possible.

**Other:** None required under normal conditions of use.
