client's request.					
Section 1- Identification					
(a) Product identifier	(a) Product identifier				
Product name	Lithium polymer battery				
(b) Other means of identification					
	Model: 863040P				
	Nominal Voltage: 3.7V				
Product description	Nominal capacity: 1000mAh				
	Watt-hour: 3.7Wh				
	Weight: 19.9g				
(c) Recommended use of	of the chemical and restrictions on use				
Recommended use	LITHIUM ION BATTERIES				
Uses advised against	No information available.				
(d) Details of the supplie	er of the safety data sheet				
Supplier Name	Shenzhen On Real Innovation Electronics Technology Limited				
Cumplian Address	2nd Floor, Building B, Huafeng International Robot Industrial Park, Hangcheng Avenue,				
Supplier Address	Xixiang, BaoanDistrict, Shenzhen China				
Manufacture Company	ShenZhen EPT Battery Co.,Ltd.				
Manufactura Address	Building 3, Huancheng Industrial Park, No.41 Dalang north road, Dalang, Longhua				
Manufacture Address	District, Shenzhen, 518109 Guangdong, P.R. China				
Supplier Phone Number	0755-28078063				
(e) Emergency telephon	e number				
0755 00070000					

0755-28078063

Section 2- Hazards identification

(a) Classification

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). This product is an article which is a sealed battery and as such does not require an MSDS per the OSHA hazard communication standard unless ruptured. The hazards indicated are for a ruptured battery.

Section 4- First-aid measures **Description of first aid measures** • After inhalation: Supply fresh air; consult doctor in case of complaints. · After skin contact: Immediately rinse with water. • After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor. • After swallowing: If symptoms persist consult doctor. • Most important symptoms and effects, both acute and delayed No further relevant information available. · Indication of any immediate medical attention and special treatment needed No further relevant information available. Section 5- Fire-fighting measures (a) Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. (b) Unsuitable extinguishing media CAUTION: Use of water spray when fighting fire may be inefficient. (c) Specific Hazards Arising from the Chemical The product causes burns of eyes, skin and mucous membranes. Thermal decomposition can lead to release of irritating gases and vapors. (d) Hazardous Combustion Products Carbon oxides. (e) Protective equipment and precautions for firefighters As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Section 6- Accidental release measures (a) Personal precautions, protective equipment and emergency procedures If the battery is released, remove personnel from area until fumes dissipate. Provide maximum ventilation to clear out hazardous gases. The preferred response is to leave the area and allow the vapors to dissipate. Avoid skin and eyes contact or inhalation of vapors. Remove spilled liquid with absorbent and incinerated. If leakage of the battery happens, liquid could be absorbed with sand, earth or other inert substance and contaminated area should be ventilated meantime. (b) Environment precautions Do not allow product to reach sewage system or any water source. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers surface or ground water. (c) Methods and material for containment and cleaning up If battery casing is dismantled, small amounts of electrolyte may leak. Collect all released material in a plastic lined container. Dispose off according to the local law and rules. Avoid leached substances to get into the earth, canalization or waters.

TS(SZ)-YR-B-068-A01

Page 6 / 14 Pages

Section 7- Handling and storage

(a) Precautions for safe handling

Handling

Handle in accordance with good industrial hygiene and safety practice. Wear personal protective equipment. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse.

(b) Conditions for safe storage, including any incompatibilities

Storage

Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Keep out of the reach of children.

Incompatible Products

Strong acids. Strong oxidizing agents. Strong bases

Section 13- Disposal considerations

Waste treatment methods

Disposal methods	This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.
Contaminated Packaging	Disposal should be in accordance with applicable regional, national and local laws and regulations.

California Hazardous Waste Codes 141

This product contains one or more substances that are listed with the State of California as a hazardous waste.

Chemical Name	California Hazardous Waste		
Lithium Cobalt Oxide (CoLiO ₂) 12190-79-3	Toxic		
Copper 7440-50-8	Toxic
